Thank you...

During the first year from installation, the guarantee covers your boiler against manufacturing defects for both parts and labour. In order to extend this guarantee during the subsequent years from installation, all you have to do is ensure that your boiler receives a service every year.

(Please note that the cost of the service is not included in the Guarantee).

Should your boiler develop a fault please contact your original installer or alternatively contact Vaillant Service, on 0870 6060 777.
